SUMMARY

International Management master's student with experience in marketing, human resources, and customer service. My work combines creative communication with research, reporting, and practical coordination. Through professional experience and academic projects, I have developed skills in campaign planning, brand positioning, audience research, and data visualization using Power BI and Excel. I enjoy turning information into clear ideas, useful reports, and well-organized work.

EXPERIENCE

Service & Sales — KFC 10/2025 – Present
Customer Service & Sales Associate
Hanau, Germany

- Support service and sales operations at a location serving more than 2,000 customers daily, maintaining accuracy and service quality during busy shifts.
- Handle customer orders, requests, and payments efficiently in a high-volume environment.
- Coordinate with colleagues during peak periods to keep orders moving and complete daily operational tasks.

Sitara Petroleum Service Limited 06/2022 – 12/2023
Marketing Executive
Pakistan

- Coordinated campaign rollout across internal teams and external vendors, managing briefs, feedback, and approvals from planning through execution.
- Tracked campaign performance and used data-informed adjustments to help improve engagement by approximately 15%.
- Prepared presentations and structured performance reports for senior management, translating campaign data into clear findings and recommendations.

Pak-Arab Refinery Limited (PARCO) 07/2022 – 09/2022
Human Resources Intern
Pakistan

- Supported onboarding and training documentation for 7 new employees during a three-month internship.
- Assisted an 11-person team with internal communication and coordination across departments and international teams.
- Prepared and organized documentation for management reporting, supporting access to information needed for decisions.

PROJECTS

Global Market Dynamics & Supply Chain Cockpit (Power BI):

Independent portfolio project

- Developing an interactive dashboard using financial data from Adidas AG's 2024 Annual Report.
- Preparing and organizing financial statement data for analysis in Excel and Power BI.
- Creating visuals to compare financial performance across reporting periods and communicate key findings clearly.

AURA | Skincare Campaign Strategy

Concept project

- Developed a skincare campaign concept covering audience targeting, product positioning, messaging, and promotional channels.
- Used Canva AI to explore and refine creative assets within the campaign plan.
- Defined proposed performance indicators and an A/B testing plan to evaluate campaign effectiveness.

Macros 101 | Business Strategy & Brand Positioning

Academic project adapted for a portfolio

- Developed a business concept for a meal-delivery service combining personalized nutrition and convenience.
- Researched customer segments, competitors, and market conditions to define the value proposition.
- Connected brand positioning, marketing channels, and financial planning in a concise business case study.

Full Circle | Multi-Channel Brand Activation

Concept project

- Developed a brand activation concept connecting audience insights, creative direction, and campaign messaging.
- Designed visual assets and presentations using Canva and Adobe tools.
- Planned a consistent brand experience across multiple communication channels.

Who's Actually Listening | Audience Research & Communication Strategy

Research project

- Conducted audience segmentation and competitor research to identify communication opportunities.
- Translated research findings into recommendations for targeting, messaging, and channel selection.
- Presented the recommendations in a structured strategy report.
